EXAMINER'S AMENDMENT & STATEMENT OF REASONS FOR ALLOWANCE

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Claim 12:

In line 2, delete "12" and insert therefor --11--.

Claim 13:

In line 2, delete "13" and insert therefor --12--.

Examiner's Comments

3. In view of the Amendment filed 01 October 2004 thereby canceling all remaining rejected claims, the application appears to be in condition for allowance.

Information Disclosure Statement

4. The information disclosure statement filed 01 October 2004 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because each item of information contained in the information disclosure statement was first cited in a communication from a foreign patent office more than three months prior to the filing of the information disclosure statement (*i.e.* the information disclosure statement does not comply with 37 CFR 1.97(e)). It has been placed in the

Art Unit: 1746

application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).

Allowable Subject Matter

5. Claims 11-13 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art of record, US 5,937,675 to Stucker, fails to teach each and every limitation of the instant invention. Specifically, Stucker fails to teach or suggest the claimed apparatus having a treatment chamber with an evaporator therein further including a compressor and condenser forming a heat pump arranged such that the heat pump alone provides energy required for evaporation of liquid in an evaporator within the treatment chamber, which is disclosed as an essential element of claimed invention, as described in claim 11.
7. For at least the foregoing reasons, claims 11-13 are believed to recite patentable subject matter.
8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
